Our TENTH great challenge is to be _____ with _____.

When we see our faith as something that we _____ to God, we are in danger of believing our faith and morality are good enough for eternity.

But the truth is that we desperately need a _____!

1. The Rich Young Ruler – he thought his obedience alone could save him.

The _____ Factor – we only do right because everybody else is doing it.

The _____ Factor – we only do right because we're afraid of the consequences of doing wrong.

We have to realize that the heart of our problem is the problem of our heart.

2. Saul of Tarsus – he realized his obedience alone would cause his death.

The heart of our problem is the problem with our heart and we _____ fix the problem. Only _____ can.

We can treat the _____ but Jesus can cure the disease.

Create in me a pure heart, O God and renew a steadfast spirit within me. (Psalm 51:10).
